© 2023 SRS. Overview. [Step-by-Step Instructions](#) [Privacy & Security Policy](#)

Customers – All customers listed executed an agreement to protect the data for internal use only

NDA – NDA legally binds SRS to ensure each supplier is in control of its data

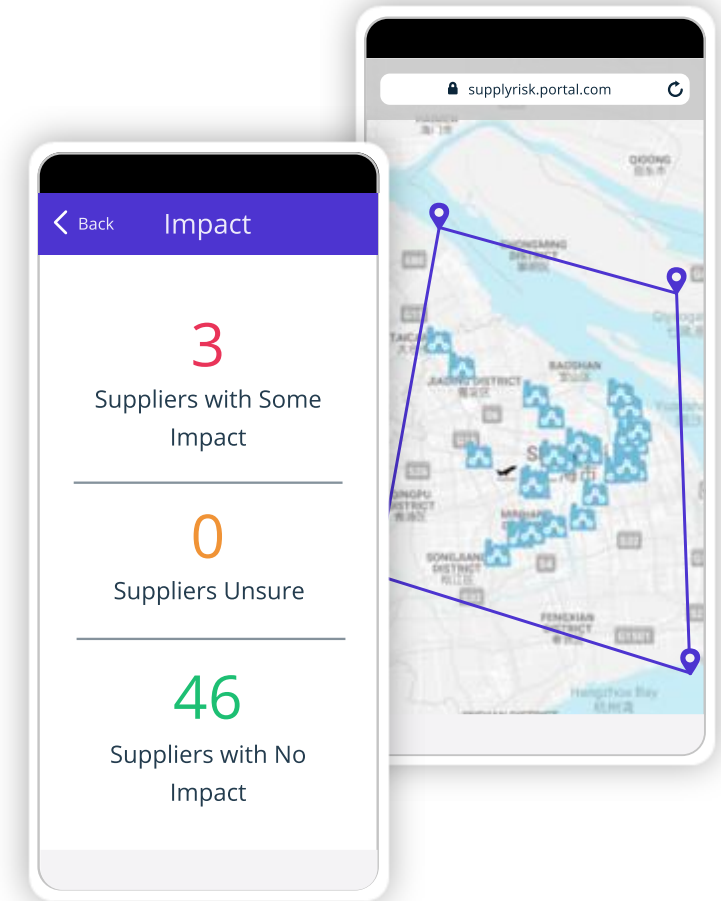

Detailed Instructions – Download instructions and screenshots

Privacy & Security – SRS privacy certifications are legally binding and enforced by US Federal Trade Commission (FTC)

How Do Your Customers Use Supplier Assessment Data?

SRS is secure software that aggregates supplier data & aids communication between many suppliers & many customers:

- **Maps** customer's supply chain production & distribution sites
- **Monitors** supplier news, natural disasters, pandemic, regulatory issues, logistics disruptions ...
- **Contacts** sites in disaster areas to ask if production is impacted
- **Provides** Business Continuity Management (BCM) responses
- **Prevents** disruptions by helping suppliers to address their risks
- **Highlights** participating suppliers
